

# Connie Smith, It'll Be Easy

(Break my heart) it'll be easy (tear it apart) it'll be easy  
All you have to do is say our love can't be that's enough for me  
(Say goodbye) tell me it's over (make me cry) hurt me all over  
If you want to break my heart it'll be easy

I can tell you're searching hard to find a way to say we're through  
You're trying not to be unkind so I'll make it easy for you  
Just say that you don't love me it's better not to lie  
But let me keep the memory when you say goodbye  
(Break my heart) it'll be easy...  
If you want to break my heart it'll be easy
