

Connie Smith, Just A Little Sunshine In The Rain

Like a wond'rous dream that ends with dawn
Your love touched my heart then you were gone
Though I couldn't keep you for my own you're the only happiness I've known
You're the one who taught me how to smile your love brightened up my world awhile
Warm and tender darling you remain just a little sunshine in the rain
You're the one who taught me...
Just a little sunshine in the rain
