

# Connie Smith, Nobody But A Fool (Would Love Y

Nobody but a fool would love you after the way you've done me  
Broke every vow you made me broke every rule  
Who'd lie awake all night cryin' till you were out of sight  
Loving you with all of her might nobody but a fool

I don't know what it was that made me trust you like I did  
Stars got in my eyes or either rocks got in my head  
All I knew was your two lips kissed me heavenly  
Till yesterday those tender lips kissed goodbye to me  
Nobody but a fool would love you...

[ steel ]

Well people tried to tell me how you'd hurt me I suppose  
But I was blind as any bat and deaf as any post  
You caught me like a tiger I loved you like a lamb  
And knowing I still do just shows me up for what I am  
Cause nobody but a fool would love...
