

# Connie Smith, Now

There was a time not long ago I felt complete I loved you so  
And nights would never get me down but this has all been changed around  
Now my world is filled with loneliness now I hurt so I should love you less  
But now no matter what I do can't ease my mind I find I still love you

You waved goodbye without a word a door that closed was all I heard  
And now I feel there's nothing more all my happiness went out that door  
And now my world is filled with loneliness...

Can't stop this living in the past how long this heartbreak have to last  
If you'd come back to love again all my tears would stop but until then  
My darlin' now my world is filled with loneliness...  
Can't ease my mind I find I still love you
