

Connie Smith, Stand Beside Me

[Both]

Stand beside me stand beside me you're the only one who ever made me care

[Connie]

I can't stand to think that I might be alone

No alone again like the way it was back then

Before you walked into my heart and told me we would never part

So stand beside be don't ever let me be alone again

[Both]

Stand beside me stand beside me for if I should lose you I just couldn't get anywhere

Stand beside me stand beside me you're the only one who ever made me care

[Nat]

Oh there'll be times when everything goes wrong

But darlin' I won't care if I know you're standing there

No matter what we have to do together we can see it through

So stand beside me and I'll be standing right there next to you

[Both]

Stand beside me stand beside me...

You're the only one who ever made me care
