Connie Smith, Ten Thousand And One

TEN THOUSAND AND ONE (Pat Bunch - Dan Mitchell) '78 Famous Music

If I'd left you the first time you've hurt me The hurt might already be gone But I love you so much that I can't live without you And somehow I kept hanging on My love's strong enough to live through your weakness And forget each bad thing as it's done I've given you ten thousand chances And here goes ten thousand and one Ten thousand and one ten thousand and one As sure as the morning will come Ten thousand chances and I've just begun Here goes ten thousand and one I marvel my love just grows stronger No matter what you do wrong I can't shake the feeling God made me for you And it keeps me right where I belong Ten thousand and one ten thousand and one... Here goes ten thousand and one
