

# Connie Smith, Together Alone

[ Nat ]

So many things to see in this old world but all I can see is you

[ Connie ]

In a crowded subway train walkin' in the country rain you're there with me too

[ Nat ]

All of the songs sung in any day your voice is all I hear

[ Connie ]

Though each song has its own place finished quickly fades away I hear you everywhere

[ Nat ]

And though I know you want me pleased with everything I do

[ Connie ]

Honey I can find the way to open look what I don't like about you

[ Nat ]

Well it's been said many times that we are by ourselves and each man is on his own

[ Connie ]

I don't care that may be true I just wanna be with you

[ Both ]

Together alone

And though I know you want me...
