

Connie Smith, Together Alone

[Nat]

So many things to see in this old world but all I can see is you

[Connie]

In a crowded subway train walkin' in the country rain you're there with me too

[Nat]

All of the songs sung in any day your voice is all I hear

[Connie]

Though each song has its own place finished quickly fades away I hear you everywhere

[Nat]

And though I know you want me pleased with everything I do

[Connie]

Honey I can find the way to open look what I don't like about you

[Nat]

Well it's been said many times that we are by ourselves and each man is on his own

[Connie]

I don't care that may be true I just wanna be with you

[Both]

Together alone

And though I know you want me...
