

# Consumed, Gutbuster

Its never quite as good  
The day you left me stood  
Standing on my own two feet  
Ive you to thank for that

Vent my spleen let it all come clean  
Its busting up my guts

This ones for you  
For all the things you do  
You never let me down  
You can be trusted

Vent my spleen let it all come clean  
Its busting up my guts

You and me for history  
And I know that now

Vent my spleen let it all come clean  
Its busting up my life

Can you be trusted?
