

Consumed, Wake Up With A Smile

i will be there for the wake up
to take you back with me
i will wake up with a smile just for you

CHORUS

i will be there for the wake up
to take you back with me
and i'll wake up with a smile just for you

i see the pictures on the t.v
there not half as good as you
and i like the silly things that you do

i like to watch her while she's sleeping
it systems me to go
from the start
from the heart
cause she's smart

and you hit the part
don't you read the words of what you've seen and heard

i see the pictures on the t.v
there not half as good as you
and i love the silly things that you do

CHORUS

i will be there there for the wake up
to take you back with
and i will wake up with a smile just for you (repeat1)

don't you read the words
of what you've seen and heard
SHE'S SMART
