

# Converge, In Her Blood

you are nothing more than dying royalty  
you are nothing more than a fading drama queen  
your spelling errors in love letters just stole your crown  
you are nothing more than late night fantasy  
you are nothing more than a rehearsed tragedy  
your spelling errors in love letters just killed your dream  
just killed you  
you are nothing more than a dim lit whore  
you are nothing more than a crashing bore  
in your blood paid  
you chase a shadow that will fade out as pain
