

# Conway Twitty, Grandest Lady Of Them All

She's never in the spotlights but everybody knows that she's the star  
And once she shines upon you she'll make you truly proud of where you are  
She'll wipe away the pain of all the dues you had to pay  
When the curtain to her world starts to unfold  
With mother tender hand she will applaud and feed the hunger in your soul

And she's known as the Grand Ole Opry where the legend come to call  
She's the queen of country music she's the grandest lady of them all

She sings of desperados and lonesome whistle love and midnight train  
And the coal mines of Kentucky and how it feels to be out in the rain  
She sings of Texas cowboys of hoboes and of heroes  
And the loneliness up where and prison blues  
But most of all she sings about the common people just like me and you  
And she's known as...
