

Conway Twitty, I'm Used To Losing You

I came here to say I love you one more time
Determined to get through to you or drive you from my mind
The way you're treating me is nothing new
I know the feeling well I'm used to losing you

I'm used to losing you but I want you to know
You've hurt me your last time I've gone as far as I can go
So let me know what you decide to do
You can go or stay I'm used to losing you
[steel]
I'm used to losing you but I want you to know
You've hurt me your last time I've gone as far as I can go
So if leaving me is what you wanna do
Go on and go I'm used to losing you
