

# Conway Twitty, She Did It Did I Didn't

And she did and it did and Lord knows I didn't and I know I'll never again  
She left me somewhere between it's over and the end  
With more than an effort to destroy any man  
There'll never be another to share the love that live  
Cause her leaving left me no love to give  
I knew if she left me it would surely destroy me  
I'll never forget her for the love we had then  
And she did and it did and Lord knows I didn't and I know I'll never again  
[ fiddle + steel ]  
I knew if she left me...
