

Conway Twitty, Weakness In Your Man

I've seen these teardrops fill your eyes so many times before
And each time I tell myself I won't hurt you anymore
I know you know that hurting you's not part of my plan
It's just part of the weakness in your man

It seems I never say the things that I want you to know
I love you but I know sometimes I just don't let it show
I guess I just expect you to stand by and understand
It's just part of the weakness in your man

I know you love me and I know how hard you try
You do everything you can to satisfy
I never mean to do the things I know I sometimes do
And I'll forget the little things that mean so much to you
But you take all this and with one sweet kiss I know you'll understand
It's just part of the weakness in your man
It's just part of the weakness in your man
