

# Conway Twitty, You Make It Hard To Take The E

Doing wrong is not a heavy on mind  
But tonight I know I did for the very first time  
Soon I'll pace you for I love you without a doubt  
You make it hard to take the easy way out

I'll confess and hope that you understand  
Then I'll beg you to forgive this one mistake in your man  
Yes I'll admit I can't back on your account  
You make it hard to take the easy way out

You make it hard to take the easy way out  
To lose your love would be the end there's no doubt  
The hurt I feel is only shame I brought about  
You make it hard to take the easy way out
