

# Cool Hand Luke, Cinematic

The other night I had a dream  
It unfolded to the silver screen  
A tragic fire, some tears were shed  
I woke to find our hero dead  
And wonder, What if this was me?

If my life was cinematic  
With a soundtrack so dramatic  
You'd be the hero and You would save me  
And it would have the sweetest ending

I want to live in such a way  
That when I'm gone my friends would say  
That if my life was turned to film  
I'd be standing on a mountain shouting victory in the end  
But in my heart I know it's only true  
If I'm supporting actor and the Oscar goes to You

If my life was cinematic  
With a soundtrack so dramatic  
You'd be the hero and You would save me  
And it would have the sweetest ending

I don't want to let You down  
I want to make you proud  
If anyone is watching me  
I want to make it count for something

What if it ended here?  
What if the credits rolled now?  
What would the critics say?  
Would it be the biggest let down?

If my life was cinematic  
With a soundtrack so dramatic  
You'd be the hero and You would save me  
And it would have the sweetest ending

I just want to make you proud
