

Cool Hand Luke, We've Only Just Begun

have i ever wanted this much before
still a slave at every move i make
your beauty rest within the skies
my eyes have fallen from Your ways
but they will see
take it as it is with no exceptions
found a way of letting You in
found a way of vanishing
found a way of letting You become me
oh to know what it means to be free
all i know and all i see is You run to Me,
trust in Me,
run to Me
i love you
the air i breathe
the sand beneath my feet
the sun that's in my eyes
everything is You
the song i sing
the blood within my veins
the blue eternal skies
everything is You
my sweet Jesus
