

Cora, In the name of love

Broken hearts around me in the name of love
There's a role I can see in the name of love
It ain't easy to scream
It ain't easy to dream when you're on your own
There's a lot to be learned in the name of love
When two people get burnt when the flames go walk
It ain't easy to start
It ain't easy to part
It ain't easy to walk into each other's heart
It ain't easy to say
In the name of love I caress your face
In the name of beauty I'll be your grace
In the name of pleasure I take your pain
I will be your shelter from thunder and rain
In the name of love I will dry your tears
In the name of pleasure I take your fears
In the name of trust I will hold your hand
Want to be forever and ever your friend
I remember the cries in the name of love
Promise listen to lies in the name of love
It ain't easy to choose
It ain't easy to lose when you're on your own
Rainy days and regrets in the name of love
Dreams you never forget and you won't give up
It ain't easy to start
It ain't easy to part
It ain't easy to walk into each other's heart
It ain't easy to say
In the name of love I caress your face
In the name of beauty I'll be your grace
In the name of pleasure I take your pain
I will be your shelter from thunder and rain
In the name of love I will dry your tears
In the name of pleasure I take your fears
In the name of trust I will hold your hand
Want to be forever and ever your friend
In the name of love I caress your face
In the name of beauty I'll be your grace
In the name of pleasure I take your pain
I will be your shelter from thunder and rain
In the name of love I will dry your tears
In the name of pleasure I take your fears
In the name of trust I will hold your hand
Want to be forever and ever your friend
Dorota S.
