Corbin Bleu, Run It Back Again

Looking back wishing you could
rewind changing
every wrong or right
that you see.
If you could don't you think
that you would make it work
just like you want it to be.

(Refrain)
Now it's never to late
there's a will, there's a way
gotta stay in the game
go the distance.
'Cause you live and you learn
that it takes a lot of work
but you win in the end
with persistence.

(Chorus)
Mix it up
get it right
go for another try:
run it back again.
Replay hit rewind
this time you do it right:
run it back again.
Run it back again.

Never wait around
cause every minute counts.
If you had the time
what would you do with it?
Would you change
show me what would rearrange.
If you got the puzzle right
how would the pieces fit?

(Refrain)
Now it's never to late
there's a will, there's a way
you could save the day like a hero.
Cause you live and you learn
that it takes a lot a work
hope that nothings gonna stop
oh no
go(ohh).

(Chorus)
Mix it up
get it right
go for another try:
run it back again.
Replay hit rewind
this time you do it right:
run it back again.
Run it back again

On your mark,
get set,
lets go.
Oh you can make it happen if you want it to.
Tick tock time to rock you know
the futures up to you.

One more time now.

(Chorus)
Mix it up
get it right
go for another try:
run it back again.
Replay hit rewind
this time you do it right:
run it back again.

(Chorus)
Mix it up
get it right
go for another try:
run it back again.
Replay hit rewind
this time you do it right:
run it back again.
Run it back again.
