

Cord, Bleeding

And she's looking for her soul to keep
And I needed more to help me sleep
Like I knew feeling what I often do
As I feel something that was never through
It's only love, I's only love
And I won't do it the same, just to save you
And I won't follow your ways just to please you
And I won't do it the same just to tame you
Is there more standing underneath the door
As I feel the blood is dripping on the floor
