

# Corey Taylor, Black Eyes Blue

I stood alone in Trafalgar Squer  
I looked around i didn't see you there  
Before they closed the roads i made it down to Hyde  
I just need you now  
I need you by my side

I know that there's no other Way  
I know that there is nothing more that i can say  
Make my black eyes blue  
I fall for you

Behind the trees  
In fronf of golden Gate  
I was never beholden to the hands of fate  
Consternation in the middle of my chest  
You know me better that the ones who know me the best

I know that there's no other Way  
I know that there is nothing more that i can say  
Make my black eyes blue  
I fall for you
