

# Cornelia Jakobs, Hold Me Closer (Szwecja - Euro)

No need to apologise  
Cuz there's nothing to regret  
Well this is not what I wanted  
Guess all the good things come to an end

So baby bye bye, wish you the best  
But most of all I wish that I could love you less  
Well maybe you're right, I'll find someone else  
You say it isn't me but when did that ever help

Hold me closer, although you'll leave before the sunrise  
Might be bleeding but don't you mind I'll be fine  
Oh it kills me I found the right one at the wrong time  
But until the sunrise  
Hold tight  
Hold tight

Maybe it happened to fast  
I guess that I understand  
You say that you've never felt this way for anyone  
and that's why it scares you to death

So baby bye bye, know It's for the best  
Still I can't see how that would ease the pain in my chest

Hold me closer, although you'll leave before the sunrise  
I'll be bleeding but don't you mind I'll be fine  
Oh it kills me, I found the right one at the wrong time  
But until the sunrise  
Could you just hold me tight  
I know I have to let go but just give me the night

Cuz tomorrow will hurt  
hurt really bad  
Cuz I'm about to lose the best I ever had

Hold me closer, although you'll leave before the sunrise  
I'll be bleeding but don't you mind I'll be fine  
Oh it kills me I found the right one at the wrong time  
But until the sunrise

Could you just hold me tight  
I know I have to let go but just give me the night

Can't you see that you found the right one at the wrong time  
it was just the wrong time  
Hold tight  
Hold tight
