

# CORPSE, Miss YOU!

I don't wanna look like this, fuck  
I don't wanna feel like this, fuck  
Wish I didn't miss her so much  
Knew that this would happen, fuck love

Break a mirror, yeah, fuckin' break a mirror  
Glass shatter, gums bleed, off the fuckin' Everclear  
Eyes red, mind race, fuckin' wish that you were here  
I was really fucking hopin' it'd be different this year, uh

She optimistic, not me (don't come back)  
No quiero estar aquí  
Woe is me, l'appel du vide  
She still want me, c'est la vie  
I can't even leave my place without hidin' my face  
Just a glamorized desk job rottin' away  
I ain't even got friends, feel like everyone's fake  
Really prayin' for the day the reaper take me away

Break a mirror, yeah, fuckin' break a mirror  
Glass shatter, gums bleed, off the fuckin' Everclear  
Eyes red, mind race, fuckin' wish that you were here  
I was really fucking hopin' it'd be different this year, uh

I don't wanna look like this, fuck  
I don't wanna feel like this, fuck  
Wish I didn't miss her so much  
Knew that this would happen, fuck love  
(Knew that this would happen, fuck love)
