

Corrosion Of Conformity, Heaven's Not Overflowing

I have been hunting on the i-10 with Jesus and a liar
And watched an ancient man use a gun to retire
I've seen the wall fall down and crush the old
So now every body's hungry but they'd rather be cold
Let it go, let it go, let it go
Before we lose it all in time what's
Deserved always gets served
Cause we stick therefore we can, break down end time
Hey fool haven't you heard Heaven's not overflowing
And I've been to a seance for the Klu Klux Klan,
I've seen a brother kill another with his own bare hand
I've seen your rising son fall in your mama's eye
And now the cops got a medal but he calls it a prize.
Let it go let it go let it go
Before we lose it all in time
Blah blah .blaaah blah blahh,
Cause we stick therefore we can break down end time
Hey fool haven't you heard Heaven's not overflowing
You know the rules only apply on the witness stand
At that you never get in trouble if you stick with your plan
That's why I'm living for the day like a necromancer
Cause when you go your gone take the pain back stabber.
Stick me & let it go...
