

# Cory Lee, As I cry

What is going on  
what happened to my life  
the price of love is everything  
cause i use to be so strong  
But now i see  
what you have done for me  
i love you more then myself  
and love is never wrong  
As i cry to sleep at night  
to face the day, to face the pain  
escape inside where memories flow  
and there you are  
As i cry to sleep at night  
to hide away, to hide the pain  
id give it all to have you here  
just to see you once again  
Your so far away  
but your still in my heart  
now i just cant understand  
what matters anymore  
The world i see  
is not what it use to be  
how do i live with half a heart  
how do i live alone  
As i cry to sleep at night  
to face the day, to face the pain  
escape inside where memories flow  
and there you are  
As i cry to sleep at night  
to hide away, to hide the pain  
id give it all to have you here  
just to see you once again  
I tried to move on  
itried to be so strong for everyone but me  
but how do i cope  
how do i cope (cope)  
As i cry to sleep at night  
to face the day, to face the pain  
escape inside where memories flow  
and there you are (2x)  
As i cry to sleep at night  
to hide away, to hide the pain  
id give it all to have you here  
just to see you once again  
heeeeyy(x3) ooohh
