

Cory Lee, I Will Be The Flame

Am I supposed to thank you
For walking in the door
And giving me your love
Like pennies to the floor
You say that you're bringing me
Everything you got
If you think that's good enough
You don't know warm from hot
I won't say I'm sorry cause I wanted something more
It's he said, she said
Let's even up the score
Give and take, and back and forth
That's the nature of the game
You supply the gasoline and I will be the flame
Said you'd love me better
Swipe me off my feet
It's time that you deliver 'cuz there's a light up on the street
You're all talk no action
Baby that's not right
Don't need to rock around my finger
(Just wanna rock with you all night)
I won't say I'm sorry cause I wanted something more
It's he said, she said
Let's even up the score
Give and take, and back and forth
That's the nature of the game
You supply the gasoline and I will be the flame
I will be the flame
Give it take it back and...
I will be the flame
Back and forth...
[Give and take, and back and forth
That's the nature of the game]
I won't say I'm sorry cause I wanted something more
It's he said, she said (Said)
Let's even up the score (Let's even up)
Give and take, and back and forth
That's the nature of the game (Game...)
You supply the gasoline and I will be the flame
I won't say I'm sorry cause I wanted something more (Wanted something more)
It's he said, she said
Let's even up the score (Won't say)
Give and take, and back and forth
That's the nature of the game (Game...)
You supply the gasoline and I will be the flame
(The flame...)
