

Cory Lee, Waste My Time

Take my time
Take my heart
Friends are telling me I lost my mind
When I hooked up with you
Maybe that's true
They say that I'll wake up one day
Asking what did I do
Maybe that's true too
But when I'm with you everything's all right
All I know is how you make me feel
When you're with me
Waste my time, waste my time
Know for sure that I'll be yours, and baby you could be mine
It's all about hanging out
'Cause you know how to waste my time
Nothing's sweeter than an empty day
With nowhere to be
You're right there with me
Kicking back and laughing as the world goes by
How we let it pass
Moving way too fast
When I'm with you I don't really care
What they all want me to be
I just want you beside me
Waste my time, waste my time
Know for sure that I'll be yours, and baby you could be mine
It's all about hanging out
'Cause you know how to waste my time
Take my time and turn it inside out
Go on and take my heart and spin my world around
Take my love and let me get you high
Can't wait for you to waste my time
When I'm with you I don't really care
What they all want me to be
I just want you beside me
Waste my time, waste my time
Know for sure that I'll be yours, and baby you could be mine
It's all about hanging out
'Cause you know how to waste my time
