

Cosmic Gate feat. Aruna, Under Your Spell

Counting out the hours
Like the beat of a song
I feel like a stranger
Wondering where I belong
I wanna start all over
But I know that I cant
Im helpless without you
I dont know who I am
Im under your spell
Bound and blind and only you can save me
Im tangled up inside
Caught in your web
Im hypnotized and only you can wake me
Only you can bring this heart to life
Colors feel so faded
And I cant hear a sound
Im walking in circles
Watching my world burn down
Theres nothing else to fight for
Cuz youre all that I know
Im stuck in your shadow
Letting you take control
Im under your spell
Bound and blind and only you can save me
Im tangled up inside
Caught in your web
Im hypnotized and only you can wake me
Only you can bring this heart to life
So pull me in and dont let go
I wanna fall forever
I wanna overflow
If theres some way out, dont let me know
I dont wanna come to
Its too big to undo
I need to be near you
I cant keep away
Under your spell
Im under your spell
Im under your spell
Bound and blind and only you can save me
Im tangled up inside
Caught in your web
Im hypnotized and only you can wake me
Only you can bring this heart to life
