Cosmic Gate feat. Aruna, Under Your Spel

Counting out the hours Like the beat of a song I feel like a stranger Wondering where I belong I wanna start all over But I know that I cant Im helpless without you I dont know who I am Im under your spell Bound and blind and only you can save me Im tangled up inside Caught in your web Im hypnotized and only you can wake me Only you can bring this heart to life Colors feel so faded And I cant hear a sound Im walking in circles Watching my world burn down Theres nothing else to fight for Cuz youre all that I know Im stuck in your shadow Letting you take control Im under your spell Bound and blind and only you can save me Im tangled up inside Caught in your web Im hypnotized and only you can wake me Only you can bring this heart to life So pull me in and dont let go I wanna fall forever I wanna overflow If theres some way out, dont let me know I dont wanna come to Its too big to undo I need to be near you I cant keep away Under your spell Im under your spell Im under your spell Bound and blind and only you can save me Im tangled up inside Caught in your web Im hypnotized and only you can wake me Only you can bring this heart to life
