

# Cover Drive, Grapefruit Perrier

Grapefruit perrier / 6x

The struggle's real today,  
Gotta numb my pain with got to  
Gonna be another no show  
Cause I can't deal with egos  
Disguised as superheroes  
Multiplying me by zero  
Pushing me into limbo  
As they try to force my hand

I don't understand why that gotta be the plan  
They print it really, really fine just to diplome  
Now I'm tryna cope but they got my life on show  
And every day, I'm just somebody that I used to know  
I don't understand why that gotta be the plan  
They print it really, really fine just to diplome  
Now I'm tryna cope but they got my life on show  
And every day, I'm just somebody that I used to know

I used to be okay  
Not afraid of my mistakes  
Now at night, I lie awake  
Sipping on grapefruit perrier  
I used to be okay  
Used to trust your sweet embrace  
Now at night, I lie awake  
Sipping on grapefruit perrier

Forcing my regression  
Using your title as a weapon  
Salty word like bitter lemon  
On a cut that is not healing  
True love is my religion  
You are pardoned and forgiven  
But I'm gon' keep my distance  
You got that evil in your eye
