

Crack The Sky, Living With The Lights On

I'm living with the lights on
I'm gonna keep my house warm
I'm gonna drive a big car
All around the town
I'm living with the lights on
I'm living with the lights on
I'm gonna smoke my cigarettes
Don't care about the big jets
I'm gonna fill my big car up
With gas, gas, gas, gas, gas
I'm living with the lights on
I'm living with the lights on
I'm talking with the Russians
I'm gonna make all the friends I can
I'm gonna have a good time
'Cause I don't believe you
