

Crack The Sky, Long Nights

I see you sittin' there with nothin' on
But the T.V. set and a glass of somethin'
I think the rain has stopped but you don't care
You just sit and stare away
Old man you know it happens every day
People come and people go
I'd like to know just what you think she'd say
If she saw you now
Man I swear these are

Chorus:

Long nights
Long nights
Long nights alone
Long nights
Long nights
Long nights at home

I know you feel that you've been cheated, Dad
I can feel it too, I can feel for you
If I were crazy I would take your life
So you could go up there and join your wife

Old man you know it happens every day
People come and people go
Don't you hear me what I'm tryin' to say is
I'll take care of you
Man I know that these are

Repeat chorus and fade
