

# Crack The Sky, Long Nights

I see you sittin' there with nothin' on  
But the T.V. set and a glass of somethin'  
I think the rain has stopped but you don't care  
You just sit and stare away  
Old man you know it happens every day  
People come and people go  
I'd like to know just what you think she'd say  
If she saw you now  
Man I swear these are

Chorus:

Long nights  
Long nights  
Long nights alone  
Long nights  
Long nights  
Long nights at home

I know you feel that you've been cheated, Dad  
I can feel it too, I can feel for you  
If I were crazy I would take your life  
So you could go up there and join your wife

Old man you know it happens every day  
People come and people go  
Don't you hear me what I'm tryin' to say is  
I'll take care of you  
Man I know that these are

Repeat chorus and fade
