

Crack The Sky, Too Cold To Be Cool

Walking pneumonia's got you down on your knees
Praising the Lord cause you think it's too late
Fear of the unknown's got you ready to tumble cause you
know you can crumble like an old piece of cake
When all the things you took for granted before
Seem important now, then you know it's too cold
to be cool ... yeah you know you're too cold

Only another person going through pain can understand
The pain you're going through. You don't need a well
adjusted, sterilized computer type to analyze what's
wrong with you. When all the things you took for granted
before seem important now, then you know it's too cold
to be cool ... yeah you know you're too cold to be cool.

Only your mind can help your mind.
