

Crack The Sky, White Music

When we're dancing on the lawn
Pink flamingos on the lawn
White music in the street
White music in the street
When we're swimming in the pool
Pink flamingo barbeque
White music before dark
White music before dark

Take it like it is
No blues, no beat
Take it like it is
No roots, it's just neat
To play white music in the street

When the band plays at the club
Pink flamingos country club
White music for dessert
White music after work

Take it like it is
No blues, no beat
Take it like it is
No roots, it's just neat
To play white music in the street
