

# Crack Up, Another Good Emotion

It's just another good emotion  
Is just another good emotion

sick in the head  
don't tell me what they've said  
i know i'm sick in the head  
i'm walking towards what is bad

sick in the head  
it's just a matter of fact  
that i'm sick in the head  
walking towards what i'll never get  
i keep on walking straight ahead

say no / what does it do  
say no / what makes it work  
say no / where did it lurk  
you know / why does it hurt
