

Crack Up, Another Good Emotion

It's just another good emotion
Is just another good emotion

sick in the head
don't tell me what they've said
i know i'm sick in the head
i'm walking towards what is bad

sick in the head
it's just a matter of fact
that i'm sick in the head
walking towards what i'll never get
i keep on walking straight ahead

say no / what does it do
say no / what makes it work
say no / where did it lurk
you know / why does it hurt
