

Crackout, Joey Lost His Mind

I will succumb to you lying
Take a fresh look to survive it
I will take myself away now
I'm a black flag and I'm dying
Like a fade I will like it
I don't wanna be away from here
Castro karma
Anti sergeant
I will make myself on the same day
I will state my case 'til they all say
Joey lost his mind on the same day
I will help myself
Hollywood life is a science
Take a sample analyse it
I don't understand the new way
Start to feel right start believing
Get myself up start the screaming
An example of the wrong way
Castro karma
Anti sergeant
I will make myself on the same day
I will state my case till they all say
Joey lost his mind on the same day
I will help myself
