

Crackout, Take Down

On a wake up I don't dare get out
Wouldn't want to touch you
Gonna break up on a system bout
Getting far too much too
Innocent too, everyone is down
Getting like we want to
To amend you, get another sound
Would you ever let me go
I like my way, I took to say
I'm on a take out
I got the will, I'm on a kill
I'm on a take down
In a black light letting nothing go
Isn't like I want to
Getting this right like you want to know
Would you ever let me go
