Craig David, My love don't stop

I've been knowin you You've been knowin me

But i aint took the chance to

Tell you what i want

Girl its been too long

And i can't go on

Can't be actin like i dont care

Cause i rolled with you

I grew up with you

My momma used to sit you

When your moms werent home

Always friends with you

Never stepped to you

But now its time that i

Start makin love to you

Time passes by

For more than a lifetime

I want to be yours girl

I would give up my life

To spend just one night with you

Cause my love don't stop

I can't lie you bring out the best in me

I gots to be yours girl

I would give up my life

Theres nothin that i won't do

Cause my love don't stop

Theres a part of me that wants us to be

Just the way we are

So we don't mess things up

But its killin me

Cause the rest of me

Wants to feel your body baby

Wants to tear it up

I'll do some things to you

No one else can do

Cause maybe im the one

To make you feel real good

Bein friends is cool

But now its time that i

Start makin love to you

[CHORUS]

Girl its been so long

I know it can't be wrong

Cause theres never been

No one but you

And girl there never will

You won't go back no more

Theres no one disguised

Can't be yours despite

Girl i've watched you

Get hurt too many times

But i can make you

All i can do

To show you how im gonna love you
