Verse 1

Finished work, driving through the rain on my way home,

Feeling tired listen to your message on my cell phone,

Thought about all the things you said , you said it down, feeling low (we need to speak so hit me ba

So I made the call and that's when girl you said that you wanted me around

Cuz your man keeps letting you down

I know I can do things for you no other man could do if only you allow me too

Chorus: Girl I want to take you for a ride

Take you to a place somewhere to hide

Girl you know we takes things nice and slow

Nobody has to know

Girl I want to take you somewhere

Take you to a place no one there

We can take things nice and slow nobody has to know

Verse 2

And you know I'll never do you wrong

That's why the way he treat you U cant understand it (Yeahh Yeahh)

You never know a thing till it's gone caught in a storm not knowing what you want

I knew from the time I met you (things were fine)

Know that I just can't stand around you (while he just lies)

At you, could he tell you that there's no other girl like you while he just cheats on you,

Girl you said that so why do you always take him back

You know its way too late for that

When you could be riding next to me

I'll just take things real slow and treat you like a real lady

Girl so what's it gonna be

Chorus

Verse 3

When you cant get to sleep at night (And we shed a tear)

And your feeling really lonely girl (Just remember Im here)

You can always confide in me anytime let me know whats on your mind (Whats on your mind)

Girl I can tell my your eyes every time that we meet (Every time that we meet)

Your tired of me to be swept your feet (Swept off your feet)

You know that it goes without saying Ill be here

And ready to show you things you need in your life

Chorus: Girl I want to take you for a ride (Awww Yeah 2x)

take you to a place somewhere to hide (Ohhh Baby 2x)
