

Craig David, Queen Of My Heart

So here we stand, in our secret place /
Where the sounds of the crowd
is so far away/ And you take my hand,
And it feels like home / We both understand /
It's where we belong / So how do I say,
Do I say goodbye / We both have our dreams /
We bouth wanna fly / So lets take tonight /
To carry us trough / The lonely times

Chorus

I'll Always look back, As I walk away /
This memory will last for eternity / And all of
our tears will be lost in the rain / When I find
my way back to your arms again / But until that
day you know you are / The queen of my heart
So lets take tonight, Never let go / While dancing
we'll kiss like there's no tomorrow / As the stars
sparkle down, Like a diamond ring / I'll treasure
this moment 'till we meet again / But no matter how
far / Away you may be / I just close my eyes and you're
in my dreams / And there you will be / until we meet

Chorus

I'll Always look back, As I walk away /
This memory will last for eternity / And all of
our tears will be lost in the rain / When I find
my way back to your arms again / But until that
day you know you are / The queen of my heart

Chorus

I'll Always look back, As I walk away /
This memory will last for eternity / And all of
our tears will be lost in the rain / When I find
my way back to your arms again / But until that
day you know you are / The queen of my heart
