

# Craig David, World Filled With Love

[Verse]

Saw some pictures in the paper,  
of a girl I'd met the day before.  
I couldn't believe that hours later,  
I had reporters knockin at my door,  
But I used to dream about,  
the life I'm living now and,  
I didn't think I'd miss those things from the past,  
and I'm not afraid of leaving,  
or letting go of what I had,  
cause I realize that now there's no turning back.

[Chorus]

Cause I'm young heart living in a world filled with love,  
so when tear drops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I've got sunshine in my life.

[Verse]

I used to think I could get better,  
my girlfriends always used to get me wrong.  
Some distant messages, love letters,  
but those kinda feelings never lasted long.  
Cause now the only love I find's within a castle made of sand,  
and when the tide goes out it's swept away.  
Though I got my peace of mind,  
and time is firmly on my side,  
and through the bad time I can safely say...

[Chorus]

Cause I'm young heart living in a world filled with love,  
so when tear drops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I've got sunshine in my life.

[Music Break]

Ah...now that love's here to stay  
I've found a better day to brush my troubles away

[Chorus]

Cause I mean I'm young heart living in a world filled with love,  
so when tear drops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I've got sunshine in my life.  
I'm young heart living in a world filled with love,  
so when tear drops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I've got sunshine in my life.
