Cranes, Come This Far

Sometimes it's true Life can be so beautiful These days you send Wish they would never end We've come this far How beautiful you are... Look back this far How beautiful you are...

Sometimes I don't know where to go Just pictures, looking, dreams you know Sometimes I look out at the sky And I don't feel the need to try

These days are full Life can be so beautiful We've come this far How beautiful you are... We've come this far How beautiful you are... Look back this far How beautiful you are...
