

Crash Poets, What Turns You On?

I know the moment when my world turned around
Chapter 1 in my funky cosmic cowboy town
Must have started when i looked in your eyes
I saw your secret baby...

Just like a bandit - your heart i planned to steal
I can't resist this - your funky cosmic sex appeal
You said i looked like a dangerous guy
I said 'Don't worry baby, i wont bite'
The funny thing is - you said you were shy
I guess we both like to lie!

This is extacy - You're a freak like me
Don't take a genius to see
This is perfect
words are gone - so just sing along
and when your ready tell me
Just what turns you on

in chapter 2 we fell madly in love
You had the moves and baby - i had the touch
You kept it going for a miracle mile
You broke my heart with your funky cosmic cowgirl style

No defence when i see your smile
My baby likes to get WILD!

This is extacy - You're a freak like me
Don't take a genius to see
This is perfect
words are gone - so just sing along
and when your ready tell me
Just what turns you on

This is extacy - You're a freak like me
Don't take a genius to see
This is perfect
words are gone - so just sing along
La la la...and when your ready tell me

This is extacy - You're a freak like me
Don't take a genius to see
This is perfect
words are gone - so just sing along
I'll count to 3 and when your ready tell me
come on baby
just what turn you...ON! :)~
