

Crash Romeo, Get Up, Shut Up

I've been here waiting for the liars
I see them everyday
I've been here waiting for the moment
To take their breathe away

It may be my imagination
I don't think I'm okay
Maximum doce of medication
To take this all away

oh oh oh oh oh ohh
Take this all away
oh oh oh oh oh ohh
So you can hear me say

Get up, shutup, & get the fuck right out of here
We'll say it, tonight is the last time
Get up, shutup, & get the fuck right out of here
& we'll say it, tonight is the last time

& I've been here waiting for the answers
To make sense of all this
One death, one last breathe left for romance
& I'll seel it with a kiss

oh oh oh oh oh ohh
Seel it with a kiss
oh oh oh oh oh ohh
You know i never miss

Get up, shutup, & get the fuck right out of here
& we'll say tonight is the last time
Get up, shutup, & get the fuck right out of here
& we'll say tonight is the last time

All we've got
Is this time to rot
& all we got
Is this time to rot

& all we got
Is this time to rot
& all we got
Is this time to rot

& all we got
Is this time to rot
& all we got
Is this time to rot

& all we got
Is this time to rot
with you (with you), with you

Get up, shutup, & get the fuck right out of here
We'll say tonight is the last time
Get up, shutup, & get the fuck right out of here
& we'll say tonight is the last time

& I've been here waiting for the liars
to take my breathe away
