

# Crash Test Dummies, Everything Is Better With M

I'm gonna take you down

And I don't fool around

With no talkin'

I'll take you for a ride

I'll make you feel inside

What I'm feelin'

And I know

That you'll see

Everything is better with me

And I know

That you'll find

You can't get me out of your mind

You'll be hypnotized

By my beady little eyes

You can't help it

And in you're walking sleep

You'll feel it way down deep

And you'll want it

And I know

That you'll see

Everything is better with me

And I know

That you'll find

You can't get me out of your mind

I'll light your cigarette

And stroke your pretty head

In the mornin'

And when you're laying there  
With my fingers in your hair  
You'll get thinkin'

And I know  
That you'll see  
Everything is better with me  
And I know  
That you'll find  
You can't get me out of your mind
