

# Crash Test Dummies, I'll See What I Can Do

I could love you once or twice

I think you'd find it very nice

But then I'd have to call it quits

And tear you're little heart to bits

I think you're gonna come with me

I think you'll like it, too

And when you beg me for some more

I'll see what I can do

I could meet you once or twice

We'd drink our drinks and suck the ice

And I would pay and we would chat

And talk of this and laugh at that and

I think you're gonna come with me

I think you'll like it, too

And when you beg me for some more

I'll see what I can do

And when I take you home to play

And sing my tiny hear away

I think you're gonna like my licks

I think I'm gonna give you my itch, and

I think you're gonna come with me

I think you'll like it, too

And when you beg me for some more

I'll see what I can do

I think you're gonna come with me

I think you'll like it, too

And when you beg me for some more

I'll see what I can do
