

# Crash Test Dummies, I Never Fall Asleep At Night

Watch that spider in the bathroom sink  
He&sup1;s a better friend than you might think  
So let him spin his web in peace  
He catches creepy crawly things

I never fall asleep at night  
I never get the chance  
My thoughts won't stop spinning round  
They dance and dance and dance

Watch each hair on your head turn gray  
Look out the window and count your days  
One two four five six seven eight  
There ain't much to love and there's plenty to hate

I never fall asleep at night  
I never get the chance  
My thoughts won't stop spinning round  
They dance and dance and dance

Look at that bone-yard over there  
You can see it out the window from the kitchen chair  
I wanna see my name carved in one of them stones  
I wanna be part of them rottin' bones

I never fall asleep at night  
I never get the chance  
My thoughts won't stop spinning round  
They dance and dance and dance
